

Chemical Probe Reagent Authentication Certificate

[The Chemical Probes Portal](#) endorses **PF-CBP1** for use as a chemical probe in cells.

PF-CBP1

Protein target name: CREBBP

Target class: Epigenetics/Bromodomain

SMILES string: CCCC1=CC=C(C=C1)CCC2=NC3=C(N2CCN4CCOCC4)C=CC(=C3)C5=C(ON=C5C)C

InChi Key: CGWBJJZOKGZCSJ-UHFFFAOYSA-N

Control compound: ISOX-INACT

Recommendations for use

Recommended Concentration for use in cells: 100 nM - 1 μ M

This probe is not recommended for use in animal models.
